

# FREE Wildlife and Pollinator Habitat Workshop

Lapeer County: Thurs, March 22 @ 6:00 PM, Hadley Old Town Hall,  
3551 Hadley Rd, Hadley MI

**Looking to attract deer, song birds, pheasants and butterflies onto your property**, at the same time improving air, water, and soil quality? Come to a free workshop near you to learn about programs and tools available to help you create quality wildlife habitat on your property!

## **Grassland habitats provide significant value to our natural resources in Michigan.**

Grasslands provide filtration to water, collect carbon to help clean our air, and hold down soil to prevent erosion. They also **provide homes and food for a variety of wildlife including deer, song birds, butterflies, turkeys, pheasants, and much more.** Pollinators are being threatened, and their greatest need are grassland habitats with vibrant native wildflowers. Without pollinators, we face a threat of food shortages as pollinators allow food to grow.

You can help provide a safe haven and food source for our wild critters and pollinators. Michigan United Conservation Clubs, along with local Conservation Districts, Quality Deer Management Association Branches, Pheasant Forever Chapters, National Wildlife Federation, and the Department of Natural Resources, along with many other partners, are holding a **special habitat workshop series around the Lower Peninsula to provide a background on how to plant, manage, and fund grassland habitats on private land.**

These **workshops will provide an overview of value grasslands provide on a landscape.** They will also provide information on where to find seed and how to plant it, what financial and technical resources are available to assist you in creating and managing grassland habitats, and will showcase the great organizations who are here to help improve our habitats.

For more information and to register to attend a workshop near you, please visit [www.mucc.org/pollinators](http://www.mucc.org/pollinators). If this link does not work for you, please email or call Anna Mitterling at [amitterling@mucc.org](mailto:amitterling@mucc.org) or 517-346-6454.
