STRATEGIC PLANNING: SHAPING THE FUTURE OF THE LAPEER DISTRICT LIBRARY

This June, the Lapeer District Library began working with Rethinking Libraries (RTL) to engage the Lapeer community and gather feedback for a new four-year Strategic Plan. The process will include reviewing existing data, surveying the community, gathering input from Library staff and Board members, and hosting community sessions. The community survey will help us better understand the Library's current strengths, the services most valued by residents, and opportunities for future growth. Community members can participate by scanning the QR code or using the link below.

SUGGESTIONS.

Community sessions will explore possibilities for the Library's future and gather ideas about how the Library can best serve the community. Rethinking Libraries will lead customized, conversation-based presentations designed to encourage discussion and creative thinking. Once completed, the Strategic Plan will help guide the Library's future priorities, including facility planning and a potential millage increase. Ultimately, this process is an investment in the future of the Lapeer District Library and its continued role as an important community asset.
